Individualized Learning Plans

Dear KHAS community,

I hope this newsletter finds you well as we step into November and reflect on the passing of October. The weather is beginning to shift ever so gently as we continue to push forward with programs, activities, and improvements here at Khalifah Al Hamza American School.

We invite you to reflect on October's educational events and programs experienced by your children. Exam week showed that our students are growing in their maturity and awareness of the importance of discovering what they have retained over weeks of exposure and engagement.

We wanted to encourage and nurture this witnessed growth in maturity with the addition of our prayer break time. A very significant addition to the timetable that we pray will water the seeds of spiritual growth within our students.

Along with growth and maturity comes an awareness of the world around us. This awareness is supported by observing and participating in activities such as Breast Cancer Awareness, helping our students realize that life is a blessing and that we should care about those who are suffering from different illnesses.

Being thankful for the wonderments of each day is what children should experience regularly. This was displayed on the beautiful smiling faces of the students in KG as they celebrated Yellow Day with their friends and teachers singing and partaking in thoughtful activities that revolved around literacy, and numeracy.

The wonderment didn't stop there. A real-world adventure immersion took place as our KG students became "Little Chefs" for the day! Self-directed preparation of their pizzas with self-chosen toppings showed that enrichment and leadership building can start with our youngest learners.

October has been a month filled with opportunities for growth, reflection, inspiration, gratitude, and creativity. As we move further into the school year, let us remember to be grateful for what we have experienced and remain dedicated to improving with each coming month.

Praying for us all to have a productive November ahead. Sincerely,

Takiya K. Farmer

Interview with the Head of the Math Department at Khalifa AlHamza American School:

Mr. Ali Mohamad Head of the Math Department

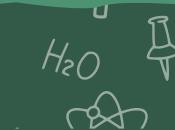

Q: What are your main priorities for the students? Teamwork, think critically, solve problems, communicate, and create.

Q: How do you ensure that all learners are included in the learning process?

People learn in different ways. Some different methods include learning visually or aurally.

You could do a formative assessment by having students visualize a concept through drawing or painting.

Q: How do you incorporate innovation and prepare students for the future?

Implementing project-based learning approaches that challenge students to tackle real-world problems.

Q: Any message for the parents? We need parents support in encouraging our students to value the learning of math.

EXAM WEEK SHOWED THAT OUR STUDENTS ARE GROWING IN THEIR MATURITY AND AWARENESS OF THE IMPORTANCE OF DISCOVERING WHAT THEY HAVE RETAINED OVER WEEKS OF EXPOSURE AND ENGAGEMENT.

#### Prayer Break Time

﴿إِنَّ الصَّالَاةَ كَانَتْ عَلَى الْمُؤْمِنِينَ كِتَابًا مَوْقُوتًا ﴾

[النساء: 103]

INDEED, PRAYER HAS BEEN DECREED UPON THE BELIEVERS A DECREE OF SPECIFIED TIMES.

(SURAT AN-NISA': 103)

## برنامج حفظ القرآن الكريم

قال تعالى: " إِنَّ هَذَا الْقُرْآنَ يَهْدِي لِلَّتِي هِيَ أَقْوَمُ وَيُبَشِّرُ الْمُؤْمِنِينَ اللَّهِ الْمُؤْمِنِينَ اللَّهِ الْمُؤْمِنِينَ اللَّهِ اللَّهِ اللَّهِ اللَّهُ الْمُؤْمِنِينَ اللَّهُ اللَّهُ اللَّهُ الْمُؤْمِنِينَ يَعْمَلُونَ الصَّالِحَاتِ أَنَّ لَهُمْ أَجْرًا كَبِيرًا " (الإسراء: 9)

وكما ورد عن أبي سعيدٍ رضي الله عنه قال: قال رسول الله صلّى الله عليه وسلّم: (لا يقعد قوم يذكرون الله عزّ الله، إلاّ حفّتهم الملائكة، وغشيتهم الرّحمة، ونزلت عليهم السّكينة، وذكرهم الله فيمن عنده)

ارتفعت الأصوات بأشرف اللغات تتلو كلام الله خالق الأرض والسماوات، تصدحُ في رحاب المدرسة، ما أجمل أصواتكم الطّاهرة التي استضافت الملائكة تحفّنا بأجنحتها ويذكرنا الله فيمن عنده، وكما في الحديث عن رسول الله صلّى الله عليه وسلّم: (إنّ الله يرفعُ بهذا الكتابِ أقواماً ويضعُ آخرين)، وكلّ الخير فيمن تعلّم القرآن وعلّمه ورغّبَ فيه وحبّبَ النّاس في تدبّره وتعلّم أحكامه

- AD AD VE

October is celebrated as pink month to create awareness about breast cancer.

Dr.Manal conducted a session on breast cancer awareness for the girls of Grades 5 & 6. The Doctor explained about the disease, its detection & prevention in early stages.

نشر الوعي الصّحي دليل على الاهتمام الصّادق بالفرد والمجتمع، والعلم يقودنا أن نحمي أنفسنا من كل داء، والأخذ بالأسباب المادية والمعنوية دليل على حسن التّوكل والوقاية خيرٌ من العلاج، التّوعية أخذ الاحتياط والحذر قبل وقوع الدّاء، قال الذّكي: أبي يُجبّرها إذا انكسرت، لكن قال الأذكى منه: أبي يُجبّرها قبل أن تنكسر

Students in the ICT lab harnessing their creativity with Canva to explore and design innovative projects.

#### SCIENCE LAB

Students of grade – 1 use a hammer to break the pistachio shells to observe the seed inside the hard shell.

What can people learn from an acorn/Pistachio shell?

#### RIPYZOGILYARIPYZOGILYA

#### INDIVIDUALIZED LEARNING PLANS

In the English Department, we prioritize the implementation of individualized learning plans tailored to the specific needs of each student. These personalized plans are carefully crafted, drawing upon comprehensive data obtained from precise and reliable reading diagnostic tests. By harnessing the insights from these assessments, we are able to design educational strategies that effectively cater to the unique learning styles, strengths, and areas for growth of every student. Through this data-driven approach, we aim to foster a supportive and engaging learning environment that not only enhances academic performance but also nurtures a deeper understanding and appreciation for learning. We firmly believe that by customizing our teaching methodologies to align with the individual requirements of each student, we can empower them to reach their full potential and cultivate a lifelong passion for knowledge and personal development.
